I have basic systems administration/IT networking skills. I am currently working in a digital manipulation role, retouching images largely for the music industry. Concurrently, I work as a freelance web designer. This role has included work producing corporate identity material and design for print. I also currently use large-format inkjet printers and associated rip software (Imagehunter).

Employment: *Freelance Web Designer (2010-Present)*

Senior Retoucher/IT Administrator - Visualeyes PhotoRepro Services Ltd. (2004-Present)

Duties include: Digital retouching, IT administration, design and maintenance of company website, liaising with clients/photographers, updating digital asset management system, producing promotional material.

Production Controller - Joe's Basement (Imaging) Ltd. (2000-2003)

Duties included: Liaising with clients/photographers, ordering couriers, control and dispatch, general enquiries.

Camera Operator - Graphic Data (UK) Ltd. (1999-2000)

Duties included: Filming archive documentation onto microfilm and microfiche, loading/unloading cameras, alphanumeric filing.

Referees: Referees on request
